Equis and Bovis

Plus a one off **£75** set up fee (all prices exclude VAT)

With a library of **over 1,100**, Webpartner's exclusive peer reviewed owner factsheets from the relevant Vetlexicon services, cover a broad spectrum of pet care hints and tips. They are a perfect printable resource that you can provide for your clients, supplying them with trustworthy information and advice, as well supporting your customer relationship.

These factsheets cover a multitude of small and large animals. Within each species, there are a wide variety of categories from Behaviour to Heart Diseases, and Travel to Diagnostic and Surgical procedures, which help communicate efficiently with your customers.

Each category has a selection of articles that cover the health and welfare of the animal and are provided in a question and answer format. Any pet owner or farmer will have all the fundamental care information they should need in order to be successful animal carers.

Our owner factsheets can be printed or saved as PDFs which means they can be sent as an attachment to a friend or family member and saved on the device for future reference. They are an important resource which are kept up to date on an ongoing basis by Vetstream via the automatic API feed.

The styling of the factsheets can be made to match the styling of your practice website in font, colour and size text. You can send the URL of each owner factsheet to your client via email, SMS or other electronic communications.
